

Due Giorni di Algebra Lineare Numerica e Applicazioni

Monday, 20 January 2025

Morning Session I: Morning Session I - Building E (09:00 - 10:40)

time	[id] title	presenter
09:00	[32] Lanczos with compression for symmetric matrix functions	SIMUNEC, Igor
09:20	[27] Estimation of spectral gaps for sparse symmetric matrices	RINELLI, Michele
09:40	[2] On generating Sobolev orthonormal rational functions	FAGHIH, Amin
10:00	[15] An Augmented Lagrangian preconditioner for the control of the Navier--Stokes equations	LEVEQUE, Santolo
10:20	[11] Preconditioning Strategies for Generalized Krylov Subspace Methods for ℓ_p - ℓ_q Minimization	RATTO, Marco
